

ROACH TREATMENT PREPARATION

Roach Treatment Preparation

The following steps **MUST** be performed:

- Clean kitchen thoroughly, including floor, stove, range hood, and counter tops
- Everything should be removed from kitchen cupboards, below the sink, and all drawers.
- Bathroom cabinets and under sink should be cleaned.
- Remove all trash inside the house and garage.
- Vacuum all carpets.
- Shoes and other items on closet floors should be removed.
- Pets should be removed from inside and food bowls need to be emptied, cleaned, and placed in a protected area.
- If you have fish, the pump should be turned off the tank should be securely covered.

After Roach Treatment

- You may return 2-3 hours after treatment is performed or when product(s) are dry.
- Clean all exposed eating surfaces and exposed dishes or silverware.
- Do **NOT** clean baseboards.

It is normal to see roaches for several days after the treatment. After 2-3 weeks, your house or apartment should be retreated if you continue to see roaches.
